

BB Sotalol vs Flecainide and Propafenone: Do's and don'ts of taming the AF Rhythm

Why is Sotalol an undesirable AAD choice? In which subgroup would Sotalol still be useful?

What is the risk of QT prolongation with all 3 drugs?

What is the risk of using these drugs with LVH, if any, and the mechanism of harm?

MOA of Sotalol vs Flecainide vs Propafenone

- How is Sotalol unique in being both a B-blocker and an AAD?
- Flecainide and Propafenone are often mentioned "in the same breath". What are the differences and how to choose one over the other?

Date: 4 August 2021, Wednesday

Time: 6 - 7pm (Singapore Time UTC+8)
